

Steve Williams, UKERNA

Steve Williams is a Technical Specialist in Network Performance Measurement and Monitoring at UKERNA.

In previous lives he managed the Welsh Video Network Support Centre, based at Swansea and Aberystwyth Universities, and has been involved with a number of projects - including the JANET Quality of Service Trial, the UKERNA Content Delivery Infrastructure Trial and the UKERNA H.323 Architecture Group.

Steve was a joint author of the H.323 GDS (Global Dialling Scheme), was a founder member of the NASM (Numeric Address Space Management) Group – a ViDeNet working group co-ordinating the roll-out of the GDS world-wide – and is a member of the TERENA Technical Committee and the TERENA Networking Conference 2005 Programme Committee.
